

## Annual Report On

Insurance Agent Licensing Examinations

For the year ended December 31, 2014

New York State Department of Financial Services
Benjamin M. Lawsky, Superintendent

## INTRODUCTION

The Report on Insurance Agent Licensing Examinations, as required under § 214 of the Insurance Law, outlines the total number of examinees, the passing rate of all examinees, the mean scores as well as additional data on the correlation of the passing rate and mean scores of examinees to the applicants' gender, age, level of education, race, ethnicity and native language.

The data and demographic statistics provided in this report account for the insurance agent licensing examinations administered from January 1, 2014 through December 31, 2014. The Demographics Statistics for all insurance licensing examinations can be found on our website.

## BACKGROUND

Insurance Law § 214 requires the Superintendent to perform a study of the insurance agent licensing examinations required by Insurance Law § 2103.

Insurance Law § 2103(f)(3), requires the Superintendent to request that an applicant taking insurance agent licensing examinations set forth his or her: (1) full name, residence address, business address and mailing address; (2) gender; (3) age; (4) education level; (5) race or ethnicity; and (6) native language. The examination must also include a clear and unambiguous statement that the applicant is not required to disclose his or her gender, native language, highest level of education achieved, race or ethnicity, and that the Department of Financial Services will use the information for statistical purposes only.

An applicant may not leave any demographic question blank - he or she must specify an answer. Therefore, if the applicant does not wish to participate in the study, then he or she must choose "I decline to participate." If an applicant believes that his or her gender, race, education, age, ethnicity, or native language is not specified, then he or she may choose "unspecified."

As set forth in § 214 of the Insurance Law the statistics provided in this report are limited to examinations to obtain an insurance agent license, collectively, "Insurance Agent Licensing Examinations" which consist of the following examination categories:

## Mortgage Guaranty Agent

Bail Bond Agent

## Life Insurance Agent/Broker

Life, Accident/Health Agent/Broker

## Personal Lines Insurance Agent/Broker

## Accident/Health Agent/Broker

Property/Casualty Agent/Broker
Title Insurance Agent

Examinations are multiple-choice and administered electronically. Examination scores are based on the number of questions answered correctly. An individual must correctly answer $70 \%$ of the questions to pass the exam. The number of questions ranges from 40 to 150 across the different categories of examinations. The following table provides the total number of questions with the number of correct answers that are required to pass the examination for each category.

## OBSERVATIONS

In 2014, there were over 34,000 examinees. For examinees who provided gender information, $50 \%$ were male and $50 \%$ were female. For those who provided information on highest education level achieved, $8 \%$ reported that they did not finish high school, $17 \%$ reported high school or GED, $69 \%$ reported some kind of undergraduate level of college education, and $6 \%$ reported graduate level of education. The data indicate that male examinees and those examinees with higher education levels generally had higher passing rates and average scores on the agent licensing examinations, respectively than female examinees and those examinees with lower education levels.

The tables in this section summarize the total number of examinees, the passing rate of all examinees, the mean scores by applicants' gender, age, level of education, race, ethnicity and native language.
