

## Instructions on How to File Certification of Compliance

The DFS Certification of Compliance is a critical governance pillar for the cybersecurity program of all DFS regulated entities. Prior to **February 15, 2019**, all regulated entities and licensed persons must file a certificate of compliance to the Superintendent covering calendar year 2019 confirming their compliance with the DFS cybersecurity regulation. An entity or individual should only submit a Certification if they were in compliance with all portions of the regulations that apply to that Covered Entity. Even if you filed a Notice of Exemption, you might have to submit a Certification of Compliance to demonstrate that you were in compliance with the portions of the regulation that apply to you.

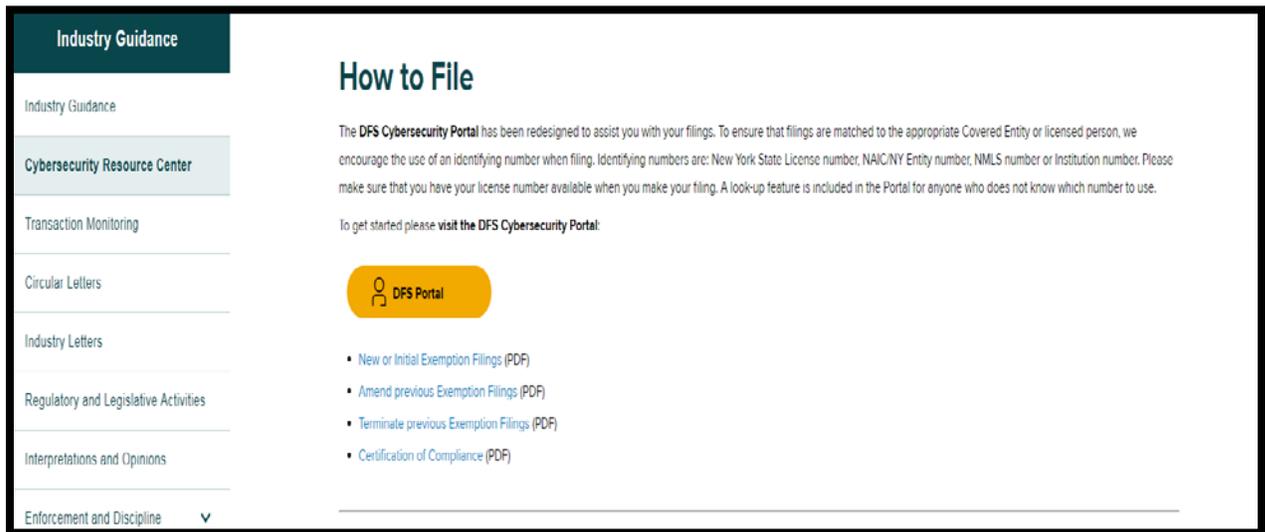

1. First, from the Department of Financial Services webpage ([www.dfs.ny.gov](http://www.dfs.ny.gov)), please click on the “Industry Guidance” column.

2. Once in Industry Guidance, click on “Cybersecurity Resource Center” which opens to below:

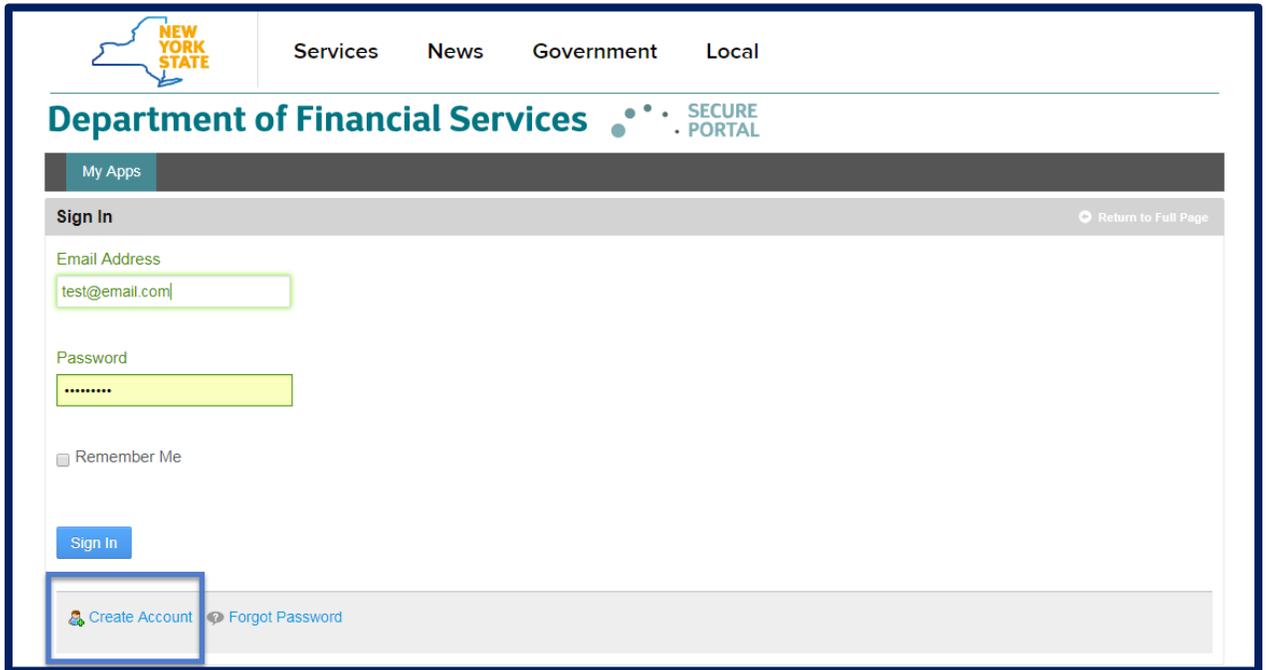

3. Once selected, go to the middle of the page under “Instructions on How to File” you can click on it to access the DFS Cybersecurity Portal. Please note, filing instruction links can be found under “How to File”.

4. Enter your DFS portal account information and select “Sign In.” If you previously made any cybersecurity filing with DFS, the account information you previously used remains the same and you should not create a new portal account. All prior filings are associated with your existing account and you should use the same account.

If you have never created a DFS portal account, you will need to create a new account by selecting “Create Account”. Please refer to the details in the next step for creating a new account.
