Above are retail copay amounts; mail order copays are 2.5 times retail (except for Catastrophic plans) for a 90-day supply.					

ADDITIONAL INSTRUCTIONS:

There are no Platinum and AI/AN CSR (100 – 300% FPL) versions of this design because these plan designs do not have a deductible (that is deductible = \$0).

- The following applies to Gold, Silver and Silver CSR plans:
For an inpatient admission, the only copay that applies during an inpatient stay is the inpatient facility per admission copay; and if surgery is performed, a surgeon copay; and if a maternity delivery is performed, a maternity delivery copay which is the same as the surgeon copay if this copay has not already been collected as part of another maternity related claim.
There are no additional copays for diagnostic tests, medical supplies, in-hospital physician visits, anesthesia, assistant surgeon, other staff doctors, etc.
For a maternity stay, the inpatient per admission copay covers charges for the mother and a well newborn.
The inpatient facility copay per admission is waived for a re-admission within 90 days of a previous discharge for the same or a related condition.
- For all the standard plan designs, the deductible must be met first, and then the cost sharing copay or coinsurance is applied to the remainder of the allowed amount until the maximum out of pocket limit is reached.
- For all standard plans with 3 PCP visits not subject to the deductible/coinsurance, the cost sharing copay is still applicable to the first 3 visits. For purposes of using these 3 PCP visits not subject to the deductible/coinsurance, a PCP visit is defined as a visit to a provider whose primary specialty is in family medicine, internal medicine, pediatric medicine, obstetrics/gynecology, or outpatient mental/behavior health services or substance use. Additional services, like laboratory tests, which are delivered during these 3 PCP visits may be subject to deductible or cost sharing. After the first 3 visits, the applicability of the deductible/coinsurance and the cost sharing copay will adhere to the guideline in Item #2.
- If the copay payable is more than the allowed amount (or the remainder of the allowed amount), the copay payable is reduced to the allowed amount (or to the remainder of the allowed amount).
- The maximum out of pocket limit is an aggregate over all covered services (medical, pediatric dental, pediatric vision, and prescription drugs), and includes the deductible.
- The deductible is over a calendar year for individual products and over the calendar year or plan year (an option of the insurer) for small group products.
For Gold, Silver and Silver CSR plans, the deductible applies only to medical, pediatric dental, and pediatric vision services (including lenses/frames), and does not apply to prescription drugs.
- No deductible or cost sharing applies to the preventive care visits/services defined in section 2713 of ACA but additional services, like laboratory tests, which are delivered at the preventive care visit may be subject to the deductible or cost sharing.
- The family deductible is two times the single deductible; the family out-of-pocket limit is two times the single maximum out-of-pocket limit. The plan designs below are non-HSA plan designs and each family member is subject to a maximum deductible equal to the single deductible and to a maximum out-of-pocket limit equal to the single out-of-pocket limit. Once all members of the family in aggregate meet the family deductible amount (or family out-of-pocket limit amount), then no family member needs to accumulate any more dollars toward the deductible (or out-of-pocket limit).
- The pediatric dental cost sharing indicated is when pediatric dental is included as part of the standard design medical QHP plan. A stand-alone pediatric dental plan will have its own deductible and cost sharing arrangements and associated premium.
