The Department of Financial Services (“DFS”) is seeking candidates to fill the position of Information Security Officer. The incumbent of this position will be responsible for ensuring that information security policies and procedures are established and implemented to protect the information assets of DFS. Duties of this position will include, but not be limited to, the following:

- Develop, implement and disseminate up-to-date department-wide information security policies and procedures to address issues presented by rapidly changing technology;
- Lead a risk-based process for vendor risk management, including the assessment and treatment for risks that may result from partners, consultants and other service providers;
- Manage and maintain a security and risk management awareness training program for DFS staff, contractors, and approved system users;
- Investigate information security incidents, recommend required actions and report breach information to DFS executive management;
- Function as an internal consulting resource on information security issues;
- Participate on teams charged with designing new applications or making major modifications to existing systems to ensure auditability and security are considerations from the inception;
- Understand and interact with related disciplines through committees to ensure the consistent application of policies and standards across all technology projects, systems and services;
- Ensure that security programs are in compliance with relevant laws, regulations and policies; and
- Review and approve all external network connections to the DFS network.

Qualifications:

Formal qualifications are not filed for this position. However, the following may be considered minimally acceptable:

- Bachelor's Degree in Information Security, Computer Science, Management of Information Systems, or related field required.
- Experience in current security tools and hardware/software security implementation.
- Demonstrated experience with Enterprise Network devices.
- Excellent written and verbal communication skills, interpersonal and collaborative skills, and the ability to communicate security and risk-related concepts to technical and nontechnical audiences
- Minimum of five years of cybersecurity experience; cybersecurity professional certification is preferred.
