

REPORT TO THE GOVERNOR AND LEGISLATURE
ON THE IMPLEMENTATION OF THE
BANKING "WILD CARD"

As required by Section 12-a of the New York State Banking Law

June 1, 2012

Superintendent of Financial Services
New York State Department of Financial Services

NEW YORK STATE
DEPARTMENT *of*
FINANCIAL SERVICES

June 1, 2012

The Honorable Andrew M. Cuomo
Governor
State of New York
Albany, NY 12224-0341

The Honorable Dean G. Skelos
Temporary President
New York State Senate
Albany, NY 12247

The Honorable Sheldon Silver
Speaker
New York State Assembly
Albany, NY 12248

The Honorable John Sampson
Minority Leader
New York State Senate
Albany, NY 12247

The Honorable Brian Kolb
Minority Leader
New York State Assembly
Albany, NY 12247

Dear Sirs:

Enclosed is the 2011 Wild Card report required by Section 12-a of the Banking Law.

Section 12-a of the Banking Law, commonly referred to as the "Wild Card" section, is intended to maintain and enhance the appeal of the New York State banking charter. It authorizes the Superintendent of Financial Services (Superintendent) to permit state-chartered banking organizations to exercise powers that are available to the corresponding federally-chartered institutions, but not expressly authorized by the State Banking Law.

Prior to October 3, 2011, Wild Card powers were exercised by the Banking Board, however that authority was transferred to the Superintendent following the adoption of the Financial Services Law, which abolished the Banking Board and merged the Banking and Insurance Departments to create the Department of Financial Services. Wild card regulations and resolutions adopted before that date remain in effect.

The Financial Services Law also created a State Charter Advisory Board to work with the Superintendent in retaining state-chartered banking institutions, encouraging federally-chartered institutions to convert to a state charter and promoting the state banking system.

The Superintendent's ability to extend federal institution powers to state-chartered or licensed banking organizations through regulatory action facilitates New York's ability to respond to the expansion of the powers and privileges of federally-chartered banks and thrifts. I believe the wild card powers authorized under the Banking Law are of great value to New York-chartered institutions and help maintain the attractiveness of the state charter compared to a federal charter.

No new Wild Card resolutions were adopted during 2011. Section 12-a is currently scheduled to sunset on September 10, 2014.

Sincerely,

Benjamin M. Lawskey
Superintendent of Financial Services

cc: Lawrence Schwartz, Secretary to the Governor
Mylan Denerstein, Counsel to the Governor
Senator Joseph Griffo, Chair, Senate Banks Committee
Senator Malcolm Smith, Ranking Minority Member, Senate Banks Committee
Assemblywoman Annette M. Robinson, Chair, Assembly Banks Committee
Assemblyman Andrew P. Raia, Ranking Minority Member, Assembly Banks Committee

Report Required by Section 12-a of the Banking Law on the Implementation of the “Wild Card” Banking Powers

INTRODUCTION

The banking system in the United States permits all banking institutions, including banks, trust companies, thrift associations, credit unions and branches of non-U.S. banks, to choose to operate under either a federal or state charter. The choice of a federal or state charter depends on many factors, including the scope of authorized banking powers, the cost of regulation, whether applicable laws (including consumer protection laws) are deemed to be reasonable, and whether the banking regulator is perceived to be reasonable and flexible. Of all these factors, one of the most important is the scope of authorized banking powers.

It is in New York State's best interest that New York State banking charters continue to provide powers that are competitive with the powers granted to federally-chartered institutions. This will help the State to retain institutions that currently are New York State chartered, encourage newly formed institutions to choose a New York State charter, and encourage some institutions with federal charters to convert to New York State charters. New York State-chartered institutions maintain their principal offices, and thus their senior executives and other employees, in New York. This ensures that important employment, credit and economic development decisions are made in New York. Federally-chartered institutions and non-New York State-chartered banks that branch into New York need not locate their principal offices here in order to conduct business in this state.

Prior to the enactment of the original Wild Card authority in 1997, certain banking powers of New York State-chartered institutions could only be expanded legislatively. State-chartered banking institutions were increasingly concerned that the State Legislature could not respond quickly enough to the expansion of the powers of federally-chartered institutions. The purpose of the Wild Card authority is to allow the Superintendent to react quickly to evolving federal banking regulations; when changes in federal statutes, regulations or interpretations grant powers to federally-chartered institutions that state-chartered institutions do not enjoy, the Superintendent may adopt a resolution permitting one or more state-chartered banking organizations of the same type to exercise the same powers.

No new Wild Card resolutions were adopted during 2011. Section 12-a is currently scheduled to sunset on September 10, 2014.

ASSESSING CHARTER ACTIONS

1. Banks and Trust Companies

In the previous Wild Card Reports, the Banking Department chronicled charter actions since December 31, 1995. The purpose of noting charter changes since 1995 was to reflect the possible effect of the federal Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994, which abolished various federal legal barriers to full interstate banking and branching.

When a state-chartered banking institution operates or considers operating on an interstate basis, the institution must assess whether its strategic goals can be realized with a state charter or whether such goals require conversion to a federal charter. Prior to Riegle-Neal, a banking institution that engaged in interstate banking had to maintain separate charters and management organizational structures for each state in which it operated. In many instances, these chartered entities were state-chartered institutions either created de novo or acquired through acquisition or merger.

Riegle-Neal made it possible to conduct interstate business through a single entity with a unified management structure. However, before New York State's adoption of its Wild Card statute in 1997, any state-chartered bank making chartering decisions also knew that New York had no means, absent legislative action, to expeditiously conform State banking powers with powers that might be newly

granted by federal bank regulators. Industry comment at the time indicated that certain large regional banks did switch charters to facilitate their interstate banking operations.

In reports for years prior to 2004, we noted that when state-chartered banking institutions merged with federally-chartered or non-New York State-chartered commercial banks or trust companies there was no clear trend or preference whether to operate under a federal or state charter. However, as we noted in our report for 2004 (the year when JPMorgan Chase merged with Bank One and switched to a federal charter and HSBC also switched to a federal charter), the surviving charter in many bank mergers (and particularly interstate mergers) has often been the one perceived to be the most viable for interstate retail banking activities. A prime factor in the decision to choose a federal charter is the ability to conduct interstate banking activities on a uniform basis under the federal banking laws applicable to national banks and federal thrift associations.

It is possible that the pendulum is now swinging to a position more favorable for state charters. In June 2009, the U.S. Supreme Court, in the case of Cuomo v. Clearing House, upheld the right of state attorneys general to enforce state consumer protection laws of general application against national banks. Moreover, the Dodd-Frank Wall Street Reform and Consumer Protection Act (i) limits the ability of the Comptroller of the Currency to preempt state law, (ii) specifically precludes preemption for subsidiaries and affiliates of banks, and (iii) makes clear that State consumer protection laws may go beyond the rules established by the Bureau of Consumer Financial Protection. The Dodd-Frank Act may lessen the attractiveness of Federal banking charters as a lever to preempt state law, and increase the importance of factors other than preemption. That would make it even more important to ensure that the Superintendent is able to grant Wild Card powers to enable the state charter to provide the same banking powers as the Federal charter.

2. Thrift Institutions

In the 1999 report, the Department initiated reporting on chartering and conversion activities involving state-chartered thrift institutions. The conversion activity of state-chartered thrift institutions since that time has been varied. State-chartered thrift institutions have merged with both state-and federally-chartered thrifts and commercial banks, and also have converted into federal thrift institutions.

In a number of respects, the Home Owners Loan Act, which governs federal thrift banking activities, provided for even broader preemption of state laws affecting banking activities than the National Bank Act. Thus, persons interested in forming a thrift institution, even if they had no intention ever to engage in interstate banking activities, may have had the view that the federal thrift charter provided greater flexibility in the conduct of banking activities even with the existence of a Wild Card law applicable to state thrifts. On the other hand, the provisions of the Dodd-Frank Act abolishing the Office of Thrift Supervision and transferring its functions relating to federal savings associations to the Office of the Comptroller of the Currency may reduce the relative attractiveness of a federal thrift charter in this regard. As evidence of this development, we note that Elmira Savings Bank converted from a federal charter to a state charter, effective on December 31, 2011. In addition, a number of other, similar conversion applications are also pending.

There were 22 state thrifts as of the end of 2011, compared to 21 at the end of 2010. This increase was due to a conversion of Elmira savings Bank from a federal to state charter.

3. Credit Unions

Although credit unions did not become entitled to the benefits of the Wild Card Statute until 2007, they have long experienced the same charter decisions as banks and thrifts. At year-end 1996, New York had 24 state-chartered credit unions and 65 federally-chartered credit unions. At year-end 2011, there were 20 state-chartered credit unions with approximately \$6.1 billion of assets and 408 federally-chartered credit unions with about \$51.7 billion of assets.

The growth in federally-chartered credit unions is attributable to a lower level of taxation of such institutions. New York has begun to address this issue, and, as a result, the Department has begun to see some interest by federally-chartered credit unions possibly in converting to a state charter.

4. Foreign Branches and Agencies

In contrast, branches and agencies of foreign banks have found New York an attractive place to be licensed, despite the existence of a federal chartering option. At year-end 1996, there were 49 such State-chartered branches and agencies in New York with total assets of \$43 billion. As of year-end 2011, there were 103 such State-chartered branches and agencies in New York, with assets of over \$1.6 trillion and 29 federal branches and agencies with \$182 million in assets. Since few foreign banks engage in retail activities in the U.S., they are attracted to New York because of its status as a global capital market. Nevertheless, while New York still boasts 80 percent of all financial assets of foreign branches and agencies in the U.S., it must continue to make its regulatory scheme attractive to foreign banks in order to maintain its position as a global leader in the financial markets.

This Report is divided into the following Sections:

- Section I: Listing of state-chartered banking institutions (including banks, thrifts, credit unions and foreign bank branches/agencies) that have been retained, established or converted to federally-chartered banking institutions or have been acquired by or merged with another banking institution, during the year ended December 31, 2011
- Section II: Total employment of the banking sector in this state
- Section III: Total number of chartered banking institutions located in this state, including branches, and the total amount of deposits of such chartered or licensed banking institutions by type of federal, state or out-of-state state charter
- Section IV: Assessment of the impact of the provisions of section 12-a that apply to the insurance activities of state chartered banking institutions
- Appendix I: Comparison of New York State-Chartered Banking Organization on 12/31/10 and 12/31/11
- Appendix II: Summary and Text of "Wild Card" Resolutions Adopted from December 31, 2010 to December 31, 2011

SECTION I

Listing of New York State-chartered banking institutions that have been retained, established or converted to federally-chartered banking institutions, or have been acquired by or merged with another banking institution during the year ended December 31, 2011.

This section of the Report contains a chronological summary of all actions that affected the charter status of New York State-chartered banks, trust companies and thrift institutions occurring from January 1, 2011 through December 31, 2011. (The reported charter actions for the stated time period are determined by the date the affected institutions commenced or ceased operations, as the case may be, pursuant to the applicable charter action.)

(1) Savings Banks and Savings and Loans Associations State Charter Activity in 2011

- Elmira Saving Bank converted from a Federal to New York State Charter (effective 12/31/2011)

There were 21 state-chartered savings banks as of December 31, 2011, an increase of one since December 31, 2010. As to state-chartered savings and loan associations, the number remained unchanged over the same period. A full list of institutions as of year-end 2011 is contained in Appendix I.

(2) Commercial Bank and Trust Company Charter Activity in 2011

- Capital Bank and Trust Company merged into a state chartered institution (effective 04/11/2011)
- Hampton State Bank merged into a federally chartered institution (effective 05/27/2011)
- ICE Trust U.S. LLC converted to a federally chartered institution (effective 07/18/2011)

There were 86 state-chartered commercial banks and trust companies as of December 31, 2011, three fewer than as of December 31, 2010. A full list of institutions is contained in Appendix I.

(3) Credit Union Charter Activity in 2011

There were 20 state-chartered credit unions as of December 31, 2011, the same number as on December 31, 2010. A full list of institutions is contained in Appendix I.

(4) Foreign Bank Branch and Agency Activity in 2011

- Bank of Scotland Plc. established a new state-licensed branch (effective 09/20/2011).

There were 102 state-licensed foreign branches and agencies as of December 31, 2011, one more than at December 31, 2010. A full list of institutions is contained in Appendix I.

SECTION IITotal employment of the banking sector in the State

There is no definitive way to measure the total number of jobs created in New York State as a result of the establishment of new banks and trust companies or the number of jobs lost by virtue of conversions. Where a bank simply converts from a state to federal charter or federal charter to a state charter, there are not necessarily any job reductions or increases. Where charter action occurs as a result of a merger, job reductions often take place, as the merged entity typically rationalizes its business and management structure. This is particularly true for personnel associated with the management and "back-office" processing operations of the combined institution. This is less likely to be the case in regard to mergers between in-state and out-of-state institutions not conducting overlapping interstate banking operations.

SECTION IV

Assessment of the impact of the provisions of Banking Law Section 12-a that apply to the insurance activities of state chartered banking institutions

Section 12-a(7)(a) of the Banking Law promotes the important policy of functional regulation of bank insurance sales activities. Banks, trust companies, savings banks, and savings and loan associations (hereafter "banking institutions") exercise such powers subject to regulation by the Department of Financial Services and pursuant to all insurance laws, rules and regulations.

For the calendar year 2011, a total of 23 New York State-chartered banking institutions reported income from insurance activities.

As indicated in previous Wild Card Reports, the dollar level of income realized from these activities tends to be modest for both large and small institutions, but for certain institutions, it represented a large portion of total non-interest income. The table below provides a summary of insurance income for New York state-chartered banking institutions.

**State Chartered Commercial Banks, Trust Companies & Saving Banks
Insurance Brokerage Income**

Insurance As % of Non-interest Income	Total 2011	Total 2010	Less Than \$1 Bil Assets 2011	Less Than \$1 Bil Assets 2010	Greater Than \$1 Bil Assets 2011	Greater Than \$1 Bil Assets 2010
