NYS Dept. of Financial Services
Property Bureau – MLMIC Demutualization
One State Street
New York, NY 10004

Dear DFS Committee,

The Suffolk County Medical Society is submitting this letter to the Department of Financial Services pertaining to the MLMIC and Berkshire Hathaway transaction.

MLMIC has been a highly valued endorsed partner of ours for decades. Many of our physician members have, and continue to retain, medical liability insurance policies, via MLMIC, that they find second to none. Their alliance with Berkshire Hathaway would strengthen the policy offerings for our physician members while growing membership confidence in this new level of financial security.

MLMIC has provided quality insurance protection, outstanding risk management and claims services for our physician members.

We anticipate that this new transaction will enrich the quality of service and the policy options available to the physicians in our community.

We look forward to an enhanced partnership with this strengthened entity.

Sincerely,

Ramin Rak, MD, FAANS
President
The Suffolk County Medical Society
